

The Biden Cancer Initiative will develop and drive implementation of solutions to accelerate progress in cancer prevention, detection, diagnosis, research, and care, and to reduce disparities in cancer outcomes. To achieve this mission, the Initiative convened the Biden Cancer Summit and the 450+ community summits held around the country focusing national attention on urgency and action against cancer.

Throughout the day, on stage at the Summit in D.C. and on social media, people shared stories epitomizing what it meant to be #cancerFIERCE, from community activists to Silicon Valley entrepreneurs, WWE legends to football players, chief medical officers to science phenoms. The Summit Call to Action elicited 57 new actions and collaborations from companies and organizations that will make a real, practical difference in the lives of patients and their families.

What comes next?

The 450+ Community Summits that took place on September 21st were just the beginning of our work together. Here are our commitments to host sites going forward.

Providing Expertise

The Colloquia provoke discussion and collaboration within the biotech, technology, science, and academic fields to drive innovation, technology, and breakthroughs against cancer. These Colloquia happen throughout the year in Washington, D.C. and at conferences and meetings in other cities/locales.

Collaborative Fora are organized by BCI to mobilize the cancer patient and advocacy community around key priorities and to promote and share tried and tested approaches to addressing common problems in cancer prevention, detection, treatment, care, and survivorship.

Quarterly calls with Biden Cancer Initiative (BCI)

- Share progress with us and each other, ask questions, provide feedback on our goals, initiatives, and progress

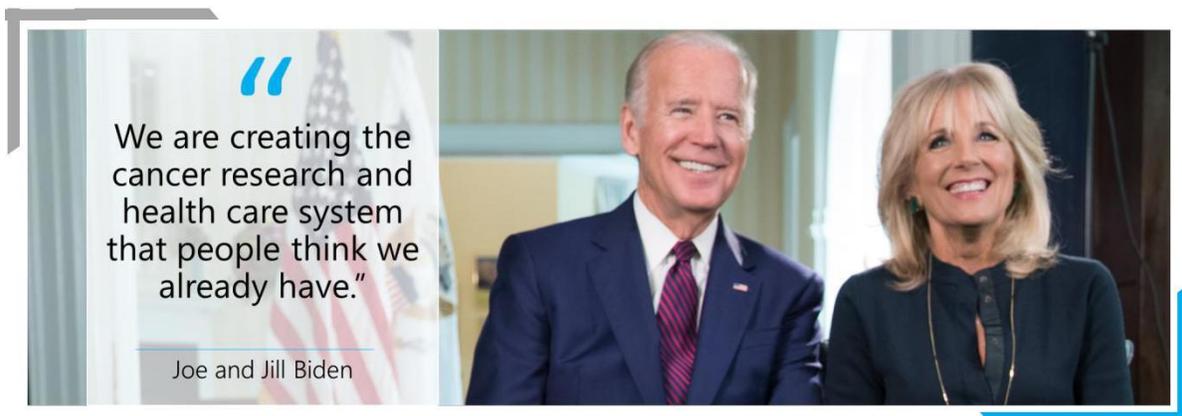

Creating Ecosystems – Facilitating Connections

- BCI Community Summit Facebook Group
 - This group will continue to serve as a platform for idea sharing and connecting with people who have similar interests to you and your organization or company
- BCI Community Summit Slack

- Join conversation channels that relate to your work
- BCI Community Summit Conversations
 - Over the next 6 months, we will hold follow-up conversations with Community Summit hosts in different geographic regions. The goal of these events will be to gain direct feedback on issues of importance in your communities and to discuss and share ideas and innovation solutions that were developed.

Amplifying Your Voice

- Showcase new Community Summit commitments
 - What came out of your September 21 Community Summit? Have you committed to a specific project or goal? We want to hear (info@bidencancer.org)!
 - We will highlight new BCI commitments on our website and social media platforms
- You are now part of the BCI family; we want to spread the word about your successes
 - Send us your success stories (info@bidencancer.org) -- we are always looking for great progress to share with our network.
- Did you write a blog post or other output from your Community Summit?
 - Send them our way (info@bidencancer.org) -- we will be sharing some on social media and spotlighting some on our website.

Telling Your Story

#CANCERFIERCE

While cancer is personal, the cancer experience is not isolated. The #cancerFIERCE campaign was launched to tell the collective cancer narrative through the prism of a broad range of cancer experiences. #cancerFIERCE is a message of strength, resilience, determination, purpose and hope.

Send us your photo along with a brief narrative (75 words or less) describing a moment when you've turned your cancer fears into #cancerFIERCE or share with us what motivates you to stay #cancerFIERCE against so many odds. Visit www.bidencancer.org/cancer-fierce to submit.
